

Breede River Hospice

Our networking partnership with the annual agricultural show committee created an opportunity to host a morning tea on World Hospice Palliative Care Day. Not only did we manage to create amazing awareness of the work that Breede River Hospice does in the community and how to access Palliative Care, but we were also able to raise more than R1500 in half an hour.

The guest list included the women who work on the farms in the Langeberg area, the Robertson Spring Show princess, as well as Board members and last-minute walk-ins. Our volunteer department only had a week in which to pull this all together but eventually we had 18 models aged from 10 to 60+.

What fun we had choosing outfits from pyjamas to full length evening dresses with accessories to match all from our recycled clothing shop! The models walked between the tables while our guests had tea showing their clothing with great style.

After the event the clothing modelled was on sale, and guests went home with a magazine as a gift.

A great morning was had by all and we have decided to host more of these fashion shows in 2012.
